SYNERGY IN NYC

It was sacred space. 30 Manhattan and Bronx students from 8 campuses huddled in the open living room of a generous, local, NYC ministry partner's apt. The atmosphere was intimate and jovial. Students celebrated God's work over the past semester. Lost hearing the gospel in Costa Rica, ministries started on closed BX campuses, a freshman sharing his coming to Christ at NYU, openings for spiritual convos with coworkers & friends. We left flooded with hope, praying God worked powerfully in our faith step!

Fast forward to Feb 21, 60+ students gathered at NYU for our 1st official NYC Monthly Gathering. Speaker, Rasool Berry, united an incredibly diverse audience around the power, love and truth of the gospel. Soon (Korean Cru branch) joined us. David (Gatherings co-planner) presented a spoken word (performed poetry) aiming to

inspire other talented students to share in the future. Several shared talents with David after!

The next day David spoke to the core student leadership for Soon in NYC to inspire & train them on evangelism for all their campuses. Summer, Columbia So, came up afterward, 'I was really convicted when you talked about sharing the gospel with those only we're connected to.' Her convo partner on campus, Alice, is from North Korea. She knew Alice needed to hear the gospel. 'I'm going to share with her as soon as I can,' she committed!

Thank you for your recent quick prayers. The whole week David could see God opening doors & giving insights for both events. God is continuing to create a vibrant community of faith in the city where the gospel is pouring out to more and more. Please pray for the gathering, Mar 12. We're inviting NYC campuses, & SBers around the country to join us!
